Objective:

I am a recent Computer Science graduate with hands-on IT support experience, Security+ certified, and skilled in cybersecurity fundamentals, lab work, and system troubleshooting. Eager to contribute to an entry-level cybersecurity role by leveraging technical knowledge, practical lab experience, and strong analytical skills.

Education:

Bachelor's Science, Computer Science (Minor: Mathematics)

Cleveland State University, Cleveland, OH

August 2020 – May 2025

Senior Capstone Project: Developed a Unity-based web game to promote awareness of NASA's Psyche mission. Designed game levels, created tile maps, and implemented scene transitions using C# and Unity.

Technical Skills:

Security Tools & Concepts: SIEM basics, threat detection, incident response, RBAC, MFA, secure coding, Wireshark, Nmap

Languages: Java, C, C++, HTML, CSS, JavaScript, SQL

Systems: Windows, Linux (CLI)

Other: Git/GitHub, System Troubleshooting, Technical Documentation

Soft Skills: Problem-solving, Team Collaboration, Communication, Time Management, Leadership

Soft Skills:

Problem-solving, Teamwork, Communication, Time Management, Leadership

Certifications:

- CompTIA Security+, Earned 2025

- TestOut Security Pro, Earned 2025

- Google Cybersecurity Certificate, 2024

Experience:

IT Intern – *Parker Hannifin, Cleveland OH*

Aug 2022 – Nov 2022

- Analyzed and cleaned large data sets using SQL to improve data accuracy.
- Identified supplemental project resource needs and flagged data issues.
- Supported project milestone tracking and coordinated with internal teams to ensure timely deliverables.
- Gained experience in enterprise IT systems, data governance, and cross-functional collaboration.

Technical Highlights:

- Completed TestOut Security Pro, gaining hands-on practice with:
 - Network security tools (firewalls, IDS/IPS)
 - Managing user access controls (RBAC, MFA)
 - Threat detection and incident response simulations
 - Analyzing logs and system activity for security anomalies
